**CONFEDERATE D-GUARD:** This is a great blacksmith made Confederate D-Guard knife. While at a recent show, several other dealers commented on how nice this original knife looks. It is 18 ½" with a 13 ½" double-edge spear-point blade. The end is panned with a single washer. You can see several flaws in the metal, and some hammer marks on the guard. The grip is tight.

Sincerely,
